Reverend Sir,
Strangely enough I had just recently re-read your first letter and was planning a reply when the second arrived.

I was ill last year for several months and my pursuit of information of family history could not be carried on. When I became well we had 2 successive moves and my correspondence & materials pertaining to this subject were not easily accessible.

Our recent move has been most fortunate in this wise, however. My husband is a driller by profession & now working in the development program of the famous Bingham Canyon open copper Pit and we are living in the suburbs of Salt Lake City. There is a fabulous genealogical library here. We go once a week to delve into the many possibilities there. I tell you the collection is fabulous! I've been so interested in other problems I'm afraid I've been absolutely static on De Witte & Phoolan line.

I'm sorry but I can't establish a connection on
our De Wittes. Perhaps I'm overlooking something. I
should have at least given you the courtesy of an answer,
sooner. I'm sorry.

I'm enclosing what I do have on De Wittie. I
must admit is not my original research. I copied
it from

whom I have never met - though my brother
tells me she is our 2nd cousin.

Next time I go to library I will try to
establish these as facts - I'll ask her
where she got the information, too.

I'm anxious to stay in touch as the
localities indicate a connection. I feel cousinship, too.

My grandfather, Fisher died in 1935 when I
was a child. I barely knew him. His
oldest child, my aunt, Clara Fisher Wallace.

is also interested in genealogy - she might recall some
information. She just sent me a collection of pictures
of Grandfather's brothers, sisters, mates & offspring.
I am enclosing a picture of James Wilson De Wittie
