Dear Cousin Robert,

At long last I've started completing the first families of S.C. papers. To tell the truth I had completely forgotten about them. I'm doing some re-arranging of my desk. I came across them "out of sight - out of mind" seems to fit me exactly!

Your Miles Genealogy in the GCHB magazine certainly makes the job easier.

I think I remember that you have a copy of Cater Bible records - which I would like a copy of myself.

I acquired from you, some time ago - the Cater and Bohun papers - but they don't have any references as to ^{have} ~~proo~~ ^{the} contents. Do you have this? I'm sure you must ^{the} have source from which your information

came. I sure would like to have such - if possible, and not too much trouble.

Also, would like a copy of the newspaper article you wrote about "Herod's Histories" - about Capt. James McPherson, and any proof of the McPherson papers - as to what official papers the info came from.

I hope I'm not asking for too much - send me the tab for your time and effort.

I'm still hoping that some day in the near ~~future~~ future you will shake the sand from your shoes and swap it for a little red (Georgia) clay and bring "M. ss Coma" to see us. Try it - you might like it!

Best regards to you both
