Mrs. J. W. Goodwin
904 Kinderway
Columbia, S. C.

Dear Mrs. Goodwin

With reference to our discussion the following are references to the Miles surname that I have noted while doing research on my family tree. County record abstracts from the South Carolina Library Manuscript Room have been indexed (by the writer) first by the Library index number, the manuscript page, and lastly the original page in the county records, ie A-596 179:431. In my earlier notes I have merely made record of the page number and in some instances I am uncertain at this writing whether it is the manuscript, or the county record page number. In census records I give where possible the township or post office, and the page number, or the family number.
