Re: OUR FAMILY CIRCLE

Dear Dr. Peeples:

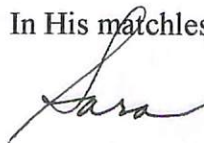

If you have two copies of Our Family Circle still available, Marion and I would like to purchase them for our children. If the copies are all sold, please apply the enclosed toward the work of preserving our family, perhaps as a donation to the Association, or in any way you find useful.

OFC
Marion and I plan to be in Hilton Head on October 13-16 for the express purpose of enjoying your presentation and for the possibility of meeting you personally. For your ready reference, ~~husband Marion is descended through Floride M. Mullryne and her father, Jehu Stoney Robert.~~ Upon my initial contact with you last year, you so kindly offered in your May 12 letter to assist and sponsor us into several lineage societies. I was almost immediately felled by a full year of health problems, ranging from an automobile wreck to surgery the week after your enclosed letter to Joe Bunch! My family is happy that their designated genealogist, yours truly, is finally on the mend, and I am hopeful you will forgive my tardiness in taking advantage of your extraordinary generosity. The most difficult part of recovery was your Cousin Marion's almost weekly inquiry: "Have you completed all of Dr. Peeples' instructions yet?" I hated confessing failure in something so important. Now, thankfully, we are at last back on track!

Perhaps you might advise further concerning the books. If there are quite a few copies of Our Family Circle remaining, we would be interested in purchasing two more because we have four children who will want this classic in each home; however, we would certainly not wish to deprive other family members. We might also place a few copies in libraries, depending on the number available. Please let us know your wishes in this regard.

We devoutly pray for good health in your home and look forward with great joy to meeting you.

In His matchless grace,

Sara Hay Lamb
(Mrs. Marion DuPont Lamb, Jr.)
