January 23rd.

Dear Mr. Peeples, or shall I call you Robert?

You wrote me such a wonderful letter, full of the amazing discoveries about the ancestors of Rev. Pierre Robert.

I should love to see the paper coat-of-arms;

I have the Welsh one, copied from a paper in the Historical Society Library in Charleston. I found the Mont du Droit on

the map in my Swiss guide-book. Also Le Loch. So we are not related to the Robert's College family, are we? Or

"Robert's Rules & Orders". I did a lot of research on the Lynchs in Ireland last

summer, I never dreamed they
were such an important family. They
were the most in Salway.

Thank you so much for all the
information. It has really broken through
barriers of ignorance. Which is the
exciting thing about genealogical research.

I have started to work on my paper
— such a plethora of chaos to turn into
order.

I am so looking forward to meeting
you and Miss Cora in June.

Sincerely,
Elizabeth S.
